

INSTRUCTIONINSTRUCTIONAL TECHNOLOGYSoftware Applications Use

The District purchases and licenses computer software from a variety of outside companies. The District does not own the copyright to this software or its related documentation and must abide by the contract or license agreement.

District staff and students will only use software in accordance with its license agreement. Staff or students who misuse computer software will be disciplined as appropriate, up to and including suspension.

The District does not condone illegal duplication of software or its related documentation. The District reserves the right to audit individual computers.
